

Feri's Electrolysis

TESTIMONIALS

Tony G.

I have frequented Feri's Electrolysis to have visible ear hair removal. I would have my barber shave my ears but in doing so it promoted heavier growth. I was embarrassed to be with my girlfriend while it was growing out because it would grow faster than the hair on my head. Now I am at ease as the ear hair has been greatly minimized.

Adam M.

I had noticeable hair (black) on the bridge of my nose. I would tweeze it and as it grew back I would have black dots that resembled blackheads. Feri explained the damage I was doing by tweezing and convinced me to quit it. I stopped tweezing and with her electrolysis she was able to almost clear the area. I now go back once a year for preventative maintenance for any new growth. She has always been caring and professional. I cannot say enough good things about her.

Jen B.

Feri's number one concerns have always been my comfort and privacy. She is a true professional.

Shirl C.

I have been a customer and friend of Feri's for many years. Back in my thirties I had a lot of facial hair. I went to Feri and she was a life saver. Since then she has removed hair from many parts of my body. It is a great feeling not to have that embracing worry. She has a lot of knowledge about hair, how it grows and what stage it is in. A true professional in her field of Electrolysis and a great lady,
